

## QUICKLY & PERMANENTLY REMOVING FOG's!

(fat's, oils & greases)

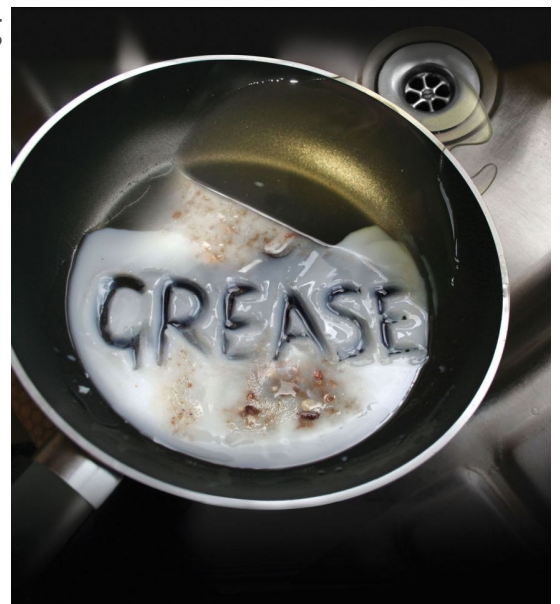

ecobug® - FatBuster - Organic matter degradation...

### UTILITIES, WATER & WASTE COMPANIES, COUNCILS etc...

**FatBuster** is a mixture of free enzymes and bacteria. The enzymes start to **breakdown fat and grease in minutes**, followed by the bacteria that produce more enzymes that convert fats oil and grease in to sugars and peptides, these by products are absorbed by the bacteria and they multiply. The cycle continues as long as there is waste present or they are killed off by excessive use of cleaning chemicals.

*The ecobug® bacteria are produced by deep fermentation to ensure fatbuster is made to the highest quality & is completely pathogen free*

The **ecobug® fatbuster** breaks down **FOG's** in **minutes** and is **100% irreversible!!**

# ***BENEFITS*** of ecobug® - FatBuster - Organic matter degradation...

COOKED FOOD FACTORY'S, DAIRY'S, ABATTOIRS, SEWAGE TREATMENT WORKS...

**FatBuster** works quickly to breakdown organic material, clear blockages and prevent foul smells

*This is a thing of the past with ecobug® fat buster...*

## 4 Key Benefits

### 1. Reduces FOG's

By reducing the FOG's (Fats, Oils and Grease) at source in food preparation and cooking areas, it greatly improves the working environment.

### 2. Eradicates Mal-Odour

Removes off-putting smells in the kitchen area, reduces the risk of rodent and cockroach infestation. Is regulation compliant

### 3. Cuts Plumbing Costs

Prevents blockages, thus saving money on expensive clean out of grease traps and potential damage from rodding

### 4. Cost Effective

ecobug® Fat Buster is a stand alone solution and is therefore a cost effective alternative to jetting and digging out drains and sewers

# ecobug® - FatBuster - Organic matter degradation...

MAKE FOG's A THING OF THE PAST!!

Conserve Water...Reduce Pollution...Save Energy...  
**SAVE MONEY....**

*For complete grease management see our **ecobug®** Grease Degradar...*

ecobug® products have been researched and manufactured to the highest performance standards, to stabilize bad bacteria, with our particular strains of good bacteria which are...

*"Specialists Microbial, Antimicrobial, Plant Extract and Enzyme Technologies"*
