A concentrated biological preparation for removing grease, oil, fats, dirt and hydrocarbon spills from hard surfaces

## ecobug® ECO-MIGHTY A Powerful Microscopic Bio-Degreaser

Schools, hospitals, hotels, restaurants, commercial kitchens etc...

**Eco-Mighty** is a concentrated biological preparation for removing grease, oil, fats, dirt and hydrocarbon spills from hard surfaces.

Formulated to cut quickly through the toughest grease, dirt, oils and hydrocarbon spills on account of the wetting, penetrating, soil cutting and anti-redepositing properties of the surfactant system.

Contains enzymes to effectively break down the fats, oils and greases. The high dilution rate and advanced detergent, enzymatic combination make this nonflammable formula an excellent choice for heavy duty spills and all round cleaning.

Biodegradable. The surfactants contained in this preparation comply with the biodegradability criteria as laid down in Regulation (EC) 648/2004 on detergents.

**Eco-Mighty** enzymes are biodegradable and friendly to the environment and in combination with our ecobug GDII form a powerful range against FOG's

# Versatility at the heart of ecobug® **ECO-MIGHTY**

## Application areas

Safe to use within the commercial kitchen environment, cookers, cooker extractors, (excluding areas requiring disinfection) in addition on concrete floors, vinyl, tiles, patios, block paving etc. Areas of use: hotels, schools, hospitals, restaurants, take aways, driveways, garage forecourts, automotive/machine shops, sewer plants, engineering departments, oil rigs etc.

## Directions for use

- Rinse area to be cleaned with plenty of water to help loosen dirt and grease.
- Dilute product appropriately depending on the level of soiling (see below). Spray on, paying particular attention to stubborn spots and allow time to clean.
- Rub with a sponge, mop or hard brush.
- Rinse off with a sharp stream of water.

## Dilution rates

**Eco-Mighty** should be diluted with water at rates of 1:10 for heavy duty degreasing, 1:30 for medium level degreasing and up to 1:300 for lighter soils and general cleaning.

## Eco-Mighty Bio ecobug friendly

We have utilised nature's most powerful microscopic degreasers so you don't have to use harsh damaging chemicals.
