

# ECO-MIGHTY DEGREASER

## PRODUCT DESCRIPTION

Ecobug® Eco-Mighty Degreaser is a powerful, enzymatic cleaner and degreaser for removing grease, oil, fats, dirt and hydrocarbon spills from all surfaces - safer for the user as well as the environment.

## CORE BENEFITS

- Quickly cuts through the toughest oil, greases and fats
- Fast enzymatic action
- Product specific enzymes to tackle oily and greasy residues
- Reduced use of hazardous ingredients owing to the inclusion of a VOC free, carbon neutral, plant derived solvent in place of traditional solvents
- Concentrated formula, reducing the cost per application.
- Advanced detergent/solvent/enzymatic combination make an excellent choice for all round maintenance cleaning
- Delivers exceptional cleaning on all surface types
- Makes floors less slippery and hazardous
- pH neutral and safe for all surfaces
- Contains a fresh and widely appealing fragrance, which revives surfaces and leaves a long lasting pleasant scent

## AREAS OF USE

- Safe to use within the commercial kitchen environment, cookers, cooker extractors
- HORECA

# ECO-MIGHTY DEGREASER

## HOW DOES IT WORK?

The product contains a plant derived, carbon neutral, VOC free eco-solvent which provides the benefit of extra solvency power when cleaning and effectively replaces the need for more conventional and hazardous solvents. The solvent reduces the surface tension of the residual oily molecules enabling the rupturing of complex molecular chains into smaller more soluble and easy to remove molecules.

The fast acting product specific enzymes break down the oily residues, allowing their complete removal rather than simply allowing them to be moved around by the wash solution.

Regular use makes kitchen floors safer for workers, reducing the incidence of slips and trips in this busy environment.

## DIRECTIONS FOR USE

1. Dilute product appropriately depending on the level of soiling – 1:10 (heavy duty degreasing) to 1:100 for lighter soils and general cleaning. Use product in spray bottle or bucket. Clean all surfaces with mop or cloth, no need to rinse.
2. The product may be applied via machine or used for manual cleaning.

## PRODUCT SPECIFICATION

Contains: Fresh fragrance, water softener, multi-surfactant combination, product specific enzymes to specifically target the break down of organic compounds including greasy and oily soils
